SELL.

# Every trip begins with a price.

Inspect a real species, read its seven-day graph, then track it across the lake.

The route changes when the market changes.

# The game loop

Capacity, speed, depth, and reel control change what the next trip can achieve.

MAIN CHARACTER

FSHiNG

**A small working  
boat.  
A long way to go.**

WEATHERED HULL  
HOOK CRANE  
CARGO CRATE  
WARM LANTERN

The boat grows through mechanics, not dialogue.

## THE FIGHT

# Reel when it is calm. Release when it runs.

The line curves, thickens, and changes colour as tension rises. Later fish demand better timing and deeper gear.
